LINDA ROCKWELL WEDS SIDNEY PIFKO

A recent afternoon ceremony in the St. Albert United Church united Miss Linda Rockwell, daughter of Mr. and Mrs. Harold Rockwell of Morinville, and Mr. Sidney Pifko. The marriage lines were read by Rev. Clifford H. Parkes. Mrs. Philip Upright was organist and Mrs. Roy Kittlitz was soloist.

Decorating the altar were bouquets of pink and white peonies and a large basket of gladioli. Escorted to the altar by her father, the bride chose for her wedding gown a floor length cream satin gown with silk net bodice, lily point sleeves. A crystal crown held her chapel length veil and she carried a white bible with pink sweetheart roses. Her attendants, Miss Norma Walker and Miss Doris Pequin wore matching gowns of blue and pink. Best man was Mr. Frank Pifko, brother of the groom and groomsman was the bride's brother, Mr. David Rockwell. For her daughter's wedding, Mrs. Rockwell wore a gown of sage green complemented by a gold petal hat. Her corsage was pink sweetheart roses.

Following the service a reception and dinner was held downstairs in the church hall where Mr. Herb Saunders was master of ceremonies. The toast to the bride was proposed by Rev. C. Parkes. Mrs. Kittlitz sang "A Wedding Prayer". Later a wedding dance was held in the Morinville Recreation Hall.

The bride was for six years associated with the Sunday School staff of the St. Albert United Church. To compliment her on her approaching marriage, the Sunday School teachers arranged a shower which was held in the church hall and which was attended by about fifty friends. Miscellaneous gifts were presented in a decorated basket. Mrs. J. Dobbie sang, accompanied by Mrs. E. Hole. In charge of arrangements were Mrs. R. N. McGee and Mrs. D. Keith.

BARBECUED FRANKFURTERS

- | | |
|----------------------------------|---------------------------------------|
| 1 packet (2 1/4 oz) | 2 tablespoons brown sugar |
| dry tomato-soup mix | 1/8 teaspoon dry mustard |
| 1 tablespoon lemon juice | 2 lb frankfurters (12 to 16) |
| 1 teaspoon dried marjoram leaves | 12 to 16 frankfurter rolls (optional) |

Adjust grill 4 inches from prepared coals. In small saucepan, combine soup mix, 1 3/4 cups water, lemon juice, marjoram, sugar, and mustard. Simmer on grill, stirring occasionally, 4 minutes. Move to edge of grill, to keep hot.

Arrange frankfurters on grill. Baste with sauce; grill 8 to 10 minutes on each side, basting often. Serve on plate or, if desired, in rolls; top frankfurters with remaining sauce. Makes 6 to 8 servings.

To cook indoors: Simmer sauce ingredients, stirring, over medium heat, 4 minutes. In broiler pan without rack, broil frankfurters until well browned, basting several times with the sauce.

Dear Sir:

We would like to inform you that the Articles from Mr. Parkes of the Town Hall regarding administration of our Town are very interesting and we hope that this series of articles will be continued.

J.K.

We are pleased to inform you that Mr. Parkes will write his articles at regular times for our Newspaper.

Dear Sir:

I would like to know when something is going to be done about controlling the speed limit on the Highway inside the Town Limits. Despite the fact that numerous signs indicate a 25 mph zone, everyone seems to be travelling a good deal faster.

Worried

Dear Sir:

The Town has put a lot of effort and work into planting trees on our boulevards to help beautify our community. A lot of these trees are suffering badly from the heat and I am wondering if the people in our community could not give these trees some water at the same time they are watering their own lawns, etc.

QUESTION: Are repeated ear infections harmful or dangerous?

ANSWER: Ear infections are always potentially dangerous. If not treated within a short period of time certain irreversible changes occur.

Most commonly an ear infection is referred to as an inflammation and accumulation of pus in the middle ear. As this process takes place the delicate bones of the ear become thickened and bound down by the infective process. With each subsequent infection, or prolongation of an ear infection, one will notice a decrease in hearing activity. Often the hearing loss is not noted by crude tests and can only be detected by an audiometer.

Other complications which are associated with a middle ear infection are mastoiditis, meningitis, pneumonia, deafness, and rarely a brain abscess can occur.

ANN ROSS

Ann Ross, Daughter of Mr. & Mrs. N. M. Ross is on an extended vacation, visiting relatives and friends in Ottawa and the Maritimes.

This is the time of the year when we look for the mosquito or rather the mosquito is looking for us. The dictionary says that the mosquito belongs to the genus Culex - whatever that is, but most people think he belongs to the genus Tophet. Probably there is no living thing in the world of its size, that gets so many raps; or is talked about so much in a forbidden language as the mosquito. On the other hand the mosquito is not as black as He's painted. He doesn't mean any harm, he just wants a living, that's all. He wants to dig out an honest living and won't go behind your back if he can carry the point fair and square before your face.

Another fine thing about the mosquito is he is fond of society. Go where you will, in the city park or the distant country fields, he will rise up to meet you and will sing you a song of welcome. And in your time of trouble, if your hands are full and you know not which way to turn next, he will stick closer to you than a brother. Evidently the man who wrote the dictionary is not overly friendly towards the mosquito, more especially the lady mosquito. He said it is only the females that send their bills in and try to collect on sight. If this is true, then what do the men mosquitoes live on? If the dictionary man is right, then there must be ten billion females to one male, for we grew up in a mosquito stronghold, and have never yet seen a

mosquito who wasn't out for business. We think the dictionary man was wrong and that is just another case of blaming the woman for everything. There seems to be no wholesale way of exterminating the mosquito, about the only plan is to meet him singlehanded, and try to get in the first lick.
